

## **INCM and PGR sign a protocol for the publication of "Legal Works"**

On the 29th of March the Portuguese Mint and Official Printing Office (INCM) and the Prosecutor General's Office (PGR) signed a protocol to approve the implementation of an editorial project related to legal publications.

As part of the scope of this project the INCM will exclusively commercialize and publish publications with content produced by the PGR, which will be included in the collection known as *Legal Works*. The publication of the *Penal Code* and the *Collection of Agreements by the European Court of Human Rights* is already scheduled for 2011.

As a counterpart to this, the INCM produces the quarterly *PGR magazine*, which will be distributed to the magistrates in the Public Prosecution Service.

The implementation of the protocol will make it possible for the INCM to be at the forefront of the legal publications market, as the works to be commercialized will be drawn up by magistrates with plenty of experience in Portuguese courts and European tribunals where Portugal is represented.
