

**INCM**

### **The INCM sponsors the 9th edition of *Smart Cards***

On the 1st and 2nd of June, the INCM participated in the 9th Edition of *Smart Cards* – the Annual Congress of Cards and Payment Methods, the highest profile event for cards and payment methods in Portugal. This year the congress was sponsored by the INCM which, over the two days, provided up-to-date information and publicised the most recent strategies and solutions in the sector.

During the congress, the INCM highlighted its experience in the security of the identification chain, helping to raise awareness about secure documents and the identity chain. It also demonstrated the cycle of identity documents and helped the rest of the participants at the event take secure document fraud into consideration.

*Smart Cards* is organised annually with the aim of monitoring the evolution of both the technological and operational aspects of the card and payment methods industry. It is also aimed at encouraging debate, the acquisition of knowledge and the exchange of knowledge and experience between managers and professionals in this area of activity and those in the public administration, banking, insurance, financial services and retail sectors, among others.
